

K1-025

Recommended use

Protective paper for calender and continuous sublimations with medium ink designs.

Description	Product features	Use	Applications
1st CLASS KRAFT Gsm 25 ←cm→ 260, 320	protection ●●●○○ diffusivity ●●●○○ strength ●●●●○	calander	fashion home deco

Features and benefits

- **Higher productivity:** More linear meters per roll, fewer roll changes optimizing production time.
- **Optimal profitability:** Reduces transportation and storage costs.
- **Porosity:** Extends the life of the calender felt due to its effective gas blocking.
- **Neutral PH:** It does not affect the colours and avoids the risk of staining the fabric in the sublimation process.
- **Adaptable:** It conforms to the felt avoiding horizontal displacements and the appearance of wrinkles.
- **Heat resistance:** Resists temperatures of 220° for 40 seconds without losing its qualities.
- **Storage:** It can keep its qualities for long periods of time when stored under controlled conditions and wrapped in plastic to avoid moisture.
- **Recyclable:** Product 100% recyclable and Ecofriendly (FSC).

Dimensions and presentations

On demand: Roll length - diameter - weight / or cut according to customer requirements.
