TEXPAPER

Protection paper for flat presses

K1F038

Recommended use

Protection paper for all kind of flat presses, including pneumatic and vacuum system.

Description	Product features	Use	Applications
1st CLASS EXTRA KRAFT Gsm 38 ←cm→ 165, 85x125, 100x150, 125x163	protection diffusivity strength	calander, flat press	fashion, sport, signage

Features and benefits

- **Porosity:** The lowest on the market, achieved by mechanical refining and without chemical coatings.
- **Placement:** Easy handling avoiding wrinkles due to its rigidity.
- **Neutral PH:** It does not affect the colours and avoids the risk of staining the fabric in the sublimation process.
- **Heat resistance:** Resists temperatures of 220° during several transfers.
- **Storage:** It can keep its qualities for long periods of time when stored under controlled conditions and wrapped in plastic to avoid moisture.
- **Recyclable:** Product 100% recyclable and Ecofriendly (FSC).

Dimensions and presentations
