

KS2040

Recommended use

Non-stick protection paper for calendering plastic or resin substrates.

Description	Product features	Use	Applications
SILICONE 2 SIDES 1st CLASS KRAFT Gsm 40 cm 165, 190	protection diffusivity strength	calander	GORE-TEX

Features and benefits

- **Non-Stick:** Its coating prevents the paper from sticking to the calendered material.
- **Porosity:** No porosity due to 5g/m² coating.
- **Adaptable:** It conforms to the felt avoiding horizontal displacements and the appearance of wrinkles.
- **Heat resistance:** Resists temperatures of 220° for 40 seconds without losing its qualities.
- **Storage:** It can keep its qualities for long periods of time when stored under controlled conditions and wrapped in plastic to avoid moisture.
- **Recyclable:** Product 100% recyclable and Ecofriendly (FSC).
